

DIABLO ROJO

DIABLO ROJO® is a powerful chemical agent, specially designed as a plumber's opener. It removes accumulations of lint, hair, mud, grease, sponge, vegetal/plant material, cigarette butts, etc. Does not remove obstructions caused by wood, iron, metal, broken glass, or other similar solid substances.

Technical Data

Analysis	Specification	Test method
Appearance	Solid powder and flakes	Visual
Color	Blue	Visual
Free Alkalinity (NaOH)	32.0% Minimum	ME-CC-049

Operation instructions

Dry use:

Use DIABLO ROJO® in a dry manner when drain waste pipes or clogged sewers are full of water.

1. Empty the contents of the container into the pipe slowly and carefully.
2. Let it act for about 30 minutes.
3. Once obstruction has been removed wash with enough quantity of hot water.

Use in solution:

Use DIABLO ROJO® when the line is out of water to allow the DIABLO ROJO® to reach the blockage.

1. Slowly and carefully empty the entire container of DIABLO ROJO® into two liters of warm water using only a plastic bucket (NEVER ALUMINUM).
2. Shake the contents very carefully as otherwise the water could bubble and its hot causes burns. (Always wear gloves to make the solution).
3. Then apply the solution to the pipeline at regular intervals.
4. Finally, after 20 minutes wash the pipe with enough quantity of hot water.

Weekly pour two tables spoon of DIABLO ROJO® into the drain. Follow with a cup of warm (but not hot) water, pouring slowly. After 10 minutes, wash with enough amount of hot water.

Packing

Polyethylene container x 350 grams in a box of 12 units.
